

Art from [imagination](#)gallery by courier

UNPACKING INSTRUCTIONS

PLEASE FOLLOW CAREFULLY

IMAGINATION PACKING

Your print is held safely in place between two sheets of hardboard taped together, with a length of tape all round the edge.

At the edges of the print there is 1cm strong foam protection, but first you have to remove the two pieces of hardboard:

If you can, peel away the tape around the edges, then peel or cut the remaining tape to release the hardboard. Alternatively, cut right around just inside each hardboard edge with a sharp stanley knife, but DO NOT CUT TOO DEEPLY to avoid damaging the print within.

Any delivery damage, please photograph and contact us right away.
We wish you much enjoyment!
